

Nurse Notes

Hello to all and welcome back! Hope everyone had a fun and rejuvenating summer!

I'm writing this to inform you of a few things.

First, please review the Medication in School Policy and Exclusion for Illness contained on the school's website.

Second, please remember the following:

- **Parents of grade six students**—time is running out for the completion of the Tdap and Meningitis immunization requirement. Exclusion of your child will occur if requirement is not completed.
- **Parents of preschool students**—don't forget the state requirement for your child to receive an annual influenza immunization.
- All grade 6, 7 and 8 students planning to participate in archery practice, try outs or as a team member must have a physical on file in the health office by **September 30th**. These must be reviewed by the school physician. ***Please contact the nurse ASAP if your child plans to participate in this program.***
- Several health forms are being sent home this year (Annual Medical Update, form for permission for administration of Tylenol/Advil and form for evaluation of classroom celebration snacks). Please complete these as directed and return to school.

Finally, please remember to call the school to report your child absent. If he/she is ill, please include symptoms and/or diagnosis, not that your child is just sick. In order to maintain a healthy school environment, surveillance of illness in the building is essential. If necessary, please feel free to leave a message on my phone (**Ext. 2106**) with this information.

Thanks to All,

Mrs. Svercauski
